

OUR NIAGARA FALLS PLAN
PUBLIC OPEN HOUSE

The City of Niagara Falls is creating a new Official Plan – a new long-term land use vision to 2051. The Official Plan guides and shapes the future of the City by identifying where and what type of development can occur, how it will be designed, and what we need to protect. Niagara Falls is expected to enter a period of unprecedented growth and we aim to provide a high-quality living experience for our residents and our visitors from around the world.

We invite you to attend an Open House to share your thoughts on the future of the City. Choose the time slot that best suits your schedule. A brief presentation will introduce the six topics and then you are invited to join small group conversations on the topics you are most interested in.

IN PERSON: THURS. JUNE 6, 2024

Memorial Meeting Room, Gale Centre Arena
5152 Thorold Stone Road, Niagara Falls

3:00 – 5:00 PM OR **6:30 – 8:30 PM**

Or, you are welcome to join a virtual discussion on the topic or topics you are most interested on Tuesday, June 11.

VIRTUALLY: TUES. JUNE 11, 2024

12:30 - 2:30PM for the Attractive City and Connected and Mobile City

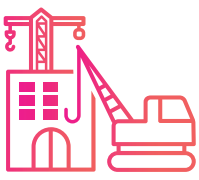

3:00 - 5:00PM for the Cultural City and the Green and Resilient City

6:30 - 8:30PM for the Growing City and International City

Please **PRE-REGISTER BY JUNE 10** for the Virtual Meeting by sending an email to **newofficialplan@niagarafalls.ca** and include the session(s) you will be attending.

DISCUSSION TOPICS

The topics to be discussed (Discussion Papers) are briefly described below. Full and summarized copies of each Discussion Paper will be available at letstalk.niagarafalls.ca/nfplan after May 29th and at the Open Houses.

A GROWING CITY: As Niagara Falls grows, it will need more housing and employment. Where are we looking to grow, what type of housing will be needed, how will it be designed both in the built areas and new expansion areas.

AN ATTRACTIVE CITY: The City is a destination and a gateway to our Country. How do we improve the aesthetic appeal for those that live here through urban design of buildings, streets and public spaces; building heights; parkland dedication while improving accessibility.

A CONNECTED AND MOBILE CITY: Connecting and integrating all forms of transportation: autos, transit, train, trucks, pedestrian, cycling, mobile devices into sustainable transportation network that supports a livable, working community.

A GREEN AND RESILIENT CITY: Integrating our natural and green spaces to help us deal with a changing climate; creating urban forests and urban agriculture, protecting our natural heritage and water system and using that to our advantage in creating a resilient City.

AN INTERNATIONAL CITY: Recognizing what we have and utilizing it to create a sustainable tourism sector including accommodation options and opportunities, and attracting new employers.

A CULTURAL CITY: Recognizing Niagara's strong base of significant cultural heritage resources and identifying what culture means to the City: built heritage, archaeology, Indigenous involvement; social/public art, educational facilities and social spaces.

Visit us anytime at **letstalk.niagarafalls.ca** to stay informed about **Our Niagara Falls Plan** and participate in ongoing online engagement.
